Laurie

Kevin and I (and Enzo) want to thank you and brooklyn animal foster network for being so amazing in your support of our situation. It has been a very stressful and scary week for us and your help has lifted a great burden. You have proven that there is good karma, that all good deeds DO go unpunished and that cynics are wrong. I think you've also created a family here that will be staunchdefenders and when we can supporters of your cause. Thank you

Ps enzo is finally thru the worst of it and home
